E: estimated concentration falling between the laboratory reporting limit and method detection limit. These values, as reported by the laboratory, are included in summed concentrations (last two columns).

ND: analyte not detected.

NOTE: ng/L (nanograms per liter) is equivalent to parts per trillion.

E: estimated concentration falling between the laboratory reporting limit and method detection limit. These values, as reported by the laboratory, are included in summed concentrations (last two columns). ND: analyte not detected.

NOTE: ng/L (nanograms per liter) is equivalent to parts per trillion.
