**AVISO DE AUDIENCIA PÚBLICA
DEPARTAMENTO DEL MEDIO AMBIENTE DE NUEVO MÉXICO**

El Departamento del Medio Ambiente de Nuevo México (NMED por su sigla en inglés) celebrará una audiencia pública que comenzará a las 9:00 de la mañana del 17 de enero de 2018, y que continuará como sea necesario, en el auditorio ubicado en la Sala 230 del Edificio 2 de la Universidad de Nuevo México en Los Alamos, cuya dirección es 400 University Drive, Los Alamos, Nuevo México. La audiencia considerará el permiso de descarga en aguas subterráneas propuesto (Permiso de Descarga o DP-1132), preparado en respuesta a un plan de descarga presentado por el Departamento de Energía de Estados Unidos y Los Alamos National Security, LLC (DOELANS o Solicitantes). El Funcionario de Audiencias dará oportunidades a los asistentes del público para presentar declaraciones orales generales o testimonio que no sea de carácter técnico antes de la conclusión de la audiencia.

Nombre de los Solicitantes: Departamento de Energía de Estados Unidos y Los Alamos National Security, LLC. (DOELANS)

Ubicación de la descarga: La descarga se encuentra dentro del Laboratorio Nacional Los Alamos (LANL), aproximadamente 1.5 millas al sur de Los Alamos, Nuevo México, en las Secciones 16, 17, 20, 21 y 22; Distrito Municipal (Township) 19N; Zona (Range) 06E; condado de Los Alamos.

Actividades que producen la descarga: La Planta de Tratamiento de Residuos Líquidos Radioactivos (RLWTF por su sigla en inglés) es una planta de tratamiento de aguas residuales que recibe y trata residuos líquidos radioactivos (RLW por su sigla en inglés) de los sectores generadores de residuos de LANL. El Permiso de Descarga autoriza el uso de múltiples sistemas y de unidades asociadas de la planta RLWTF, que incluyen: el sistema de recolección de afluentes; el sistema de almacenamiento de afluentes, que corresponde a las Instalaciones de Mitigación de Riesgo del Manejo de Residuos (WMRM por su sigla en inglés); el sistema de tratamiento de residuos líquidos de bajo nivel radioactivo; el sistema de tratamiento de aguas residuales transuránicas; y el sistema de tratamiento secundario. Los procesos de tratamiento de RLW incluyen tratamiento químico en un tanque de reacción, filtración, intercambio iónico y ósmosis inversa. El Permiso de Descarga autoriza la descarga del agua tratada por medio del Sistema Evaporador Mecánico (MES por su sigla en inglés) y el Tanque de Evaporación Solar (SET) en el Área Técnica TA-52. La descarga de agua tratada en un desagüe (Desagüe 051) está autorizada por un permiso del Sistema Nacional de Eliminación de Descargas de Contaminantes (NPDES por su sigla en inglés) otorgado por la Agencia de Protección Ambiental (EPA por su sigla en inglés) de Estados Unidos conforme a la Ley Federal de Agua Limpia, Sección 402, 33 U.S.C § 1342.

Calidad, cantidad y características del flujo de la descarga: Mediante los tres procesos antes identificados, se podrán descargar hasta 40,000 galones por día. La descarga podrá contener contaminantes del agua con concentraciones superiores a los estándares de 20.6.2.3103 NMAC y podrá contener contaminantes tóxicos según lo definido en 20.6.2.7.100 NMAC.

Profundidad a la que se encuentran las aguas subterráneas: Las aguas subterráneas con mayor probabilidad de ser afectadas se encuentran en un rango de profundidades de uno a 1,306 pies aproximadamente, y tienen una concentración de sólidos disueltos totales en un rango de 162 a 255 miligramos por litro aproximadamente.

Procedimientos seguidos en las audiencias: La audiencia se llevará a cabo conforme al reglamento de Procedimientos para obtener permisos del NMED, 20.1.4 NMAC, y el reglamento para la Protección de Aguas Subterráneas y Aguas Superficiales del NMED, 20.6.2.3110 NMAC. El público podrá asistir a la audiencia y presentar testimonio que no sea de carácter técnico, ya sea oralmente o por escrito, e interrogar a los testigos que declaren durante la audiencia. Para ser parte interesada o para presentar testimonio técnico, se deberán seguir los siguientes procedimientos:

Registro de comparecencia exigido para ser Parte interesada: Quienes deseen ser parte interesada deberán presentar ante la Secretaría de Audiencias, y notificar a todas las demás partes reconocidas, incluidos el NMED y los Solicitantes, un Registro de comparecencia (Entry of Appearance) a más tardar el 5 de enero de 2018.

Declaración de intención de presentar testimonio técnico exigida: Quienes deseen presentar pruebas, datos o testimonio de carácter técnico durante la audiencia deberán presentar ante la Secretaría de Audiencias, y notificar a los Solicitantes, al NMED y a todas las demás partes reconocidas, una Declaración de intención de presentar testimonio técnico (Statement of Intent to Present Technical Testimony) a más tardar el 5 de enero de 2018, conforme a 20.6.2.3110.C NMAC. Toda Declaración de intención oportunamente presentada se considerará como Registro de comparecencia. La Declaración de intención debe cumplir con los requisitos indicados en 20.1.4.300 NMAC y 20.6.2.3110.C NMAC, y debe incluir: el nombre de la persona que presenta la declaración; si la persona que presenta la declaración apoya o se opone al permiso propuesto; nombre/dirección/afiliación/antecedentes laborales/antecedentes educativos de cada testigo; la duración aproximada del testimonio directo de cada testigo; una lista de documentos u objetos de prueba que se ofrecerán como pruebas durante la audiencia, con una copia de cada documento u objeto de prueba que aún no forma parte del Registro Administrativo; una lista de todos los materiales técnicos –y la información sobre dónde se puede obtener el material– en los que se base cada testigo en su declaración de carácter técnico de hechos u opiniones y una explicación del fundamento de dicha opinión; y el testimonio directo completo por escrito de cada testigo, incluidas las opiniones que ofrecerá dicho testigo y una explicación del fundamento de esa opinión.

La falta de presentación oportuna de un Registro de comparecencia o de una Declaración de intención de presentar testimonio técnico impedirá que esa persona sea parte interesada del procedimiento y que presente testimonio técnico, pero no impedirá que esa persona presente una declaración de carácter general por escrito o en forma oral, o testimonio que no sea de carácter técnico durante el procedimiento.

Determinación final del NMED sobre el Permiso: El Secretario del NMED hará una determinación final de aprobar, aprobar condicionalmente o rechazar el DP-1132 según el registro administrativo para la calificación del permiso. Los comentarios del público a la audiencia

*Please note this confirmation is to be considered a quote and may be subject to change.

registro administrativo para la emisión del permiso, no suministran del permiso y la audiencia pública.

Documentos presentados ante la Secretaría de Audiencias: Todos los documentos que deban presentarse ante la Secretaría de Audiencias deberán enviarse a: Linda Vigil, Hearing Clerk, NMED, P.O. Box 5469, 1190 St. Francis Drive, Santa Fe, New Mexico 87502, (505) 827-2855.

Documentos entregados al NMED: Todos los documentos que deban entregarse al NMED deberán enviarse a: John Verbaul, NMED Office of General Counsel, 121 Tijeras Avenue NE, Ste 1000, Albuquerque, New Mexico 87102, o John.Verbaul@state.nm.us.

Información adicional y contacto con el NMED: Para obtener más información sobre el DP-1132 y la audiencia pública o para pedir que se le incluya en la lista de correos para instalaciones específicas, sírvase comunicarse con Steve Pullen, NMED Ground Water Quality Bureau (GWQB), P.O. Box 5469, 1190 St. Francis Drive, Santa Fe, New Mexico 87502-5469, llamando al (505) 827- 2919, o en steve.pullen@state.nm.us. El registro administrativo y las copias del permiso propuesto pueden examinarse en la Oficina de Calidad de las Aguas Subterráneas (GWQB).

Todo aquel que necesite asistencia, un intérprete o un dispositivo auxiliar para participar en este proceso deberá comunicarse con Linda Vigil llamando al (505) 827-2855 o mediante un pedido escrito a la Srta. Vigil al menos diez (10) días calendario antes de la audiencia a: NMED, P.O. Box 5469, Santa Fe, New Mexico 87502, o Linda.Vigil2@state.nm.us.

El NMED no discrimina por motivos de raza, color, origen nacional, discapacidad, edad o sexo en la administración de sus programas o actividades, según lo exigido por las leyes y los reglamentos correspondientes. El NMED es responsable de la coordinación de esfuerzos para el cumplimiento de las reglas y la recepción de indagaciones relativas a los requisitos de no discriminación implementados por 40 C.F.R. Parte 7, que incluye el Título VI de la Ley de Derechos Civiles de 1964, como fuera enmendado; la Sección 504 de la Ley de Rehabilitación de 1973; la Ley de Discriminación por Edad de 1975; el Título IX de las Enmiendas de Educación de 1972; y la Sección 13 de las Enmiendas a la Ley Federal de Control de la Contaminación del Agua de 1972. Si tiene preguntas sobre este aviso o sobre cualquier programa, política o procedimiento de no discriminación del NMED, puede comunicarse con la Coordinadora de No Discriminación: Kristina Pintado, Non-Discrimination Coordinator, New Mexico Environment Department, 1190 St. Francis Dr., Suite N4060, P.O. Box 5469, Santa Fe, NM 87502, (505) 827-2855, ndcoordinator@state.nm.us. Si piensa que ha sido discriminado con respecto a un programa o actividad del NMED, puede comunicarse con la Coordinadora de No Discriminación antes indicada.

Transcripciones de la audiencia. Conforme a 20.6.2.3110.J NMAC, el NMED hará una grabación de audio de la audiencia. Si una persona solicita una transcripción escrita o una copia certificada del audio grabado, esa persona deberá pagar el costo de la transcripción o de la copia del audio.

**NOTICE OF PUBLIC HEARING
NEW MEXICO ENVIRONMENT DEPARTMENT**

The New Mexico Environment Department (NMED) will hold a public hearing beginning at 9:00 a.m. on January 17, 2018, and continuing on as needed, at the University of New Mexico, Los Alamos, Lecture Hall, Building 2, Room 230, located at 480 University Drive, in Los Alamos, New Mexico. The hearing will consider the proposed ground water discharge permit (Discharge Permit or DP-1132) prepared in response to a discharge plan submitted by the United States Department of Energy and Los Alamos National Security, LLC (DOE/LANS or Applicants). The Hearing Officer will provide opportunities for general oral statements or non-technical testimony from members of the public before the conclusion of the hearing.

Name of the Applicants: United States Department of Energy and Los Alamos National Security, LLC (DOE/LANS)

Location of the Discharge: The discharge is located within Los Alamos National Laboratory (LANL), approximately 1.5 miles south of Los Alamos, New Mexico, in Sections 16, 17, 20, 21 and 22, Township 19N, Range 06E, Los Alamos County.

Activities Which Produce the Discharge: The Radioactive Liquid Waste Treatment Facility (RLWTF) is a wastewater treatment facility that receives and treats radioactive liquid waste (RLW) from waste generating locations at LANL. The Discharge Permit authorizes the use of the RLWTF's multiple systems and associated units, including: the influent collection system; the influent storage system, i.e., the Waste Management Risk Mitigation Facility (WMRF); the low-level radioactive liquid waste treatment system; the transuranic wastewater treatment system; and the secondary treatment system. RLW treatment processes include chemical treatment in a reaction tank, filtration, ion exchange, and reverse osmosis. The Discharge Permit authorizes the discharge of treated water via the Mechanical Evaporator System (MES) and the Solar Evaporative Tank (SET) at TA-52. The discharge of treated water at an outfall (Outfall 051) is authorized by a National Pollutant Discharge Elimination System (NPDES) permit issued by the United States Environmental Protection Agency (EPA) pursuant to the federal Clean Water Act Section 402, 33 U.S.C § 1342.

Quality, Quantity, and Flow Characteristics of the Discharge: Up to 40,000 gallons per day may be discharged via the three processes identified above. The discharge may contain water contaminants with concentrations above the standards of 20.6, 2.3103 NMAC and may contain toxic pollutants as defined in 20.6, 2.7, 2.7.1 NMAC.

Depth to Groundwater: Groundwater most likely to be affected ranges from depths of approximately one foot to 1,306 feet, and has a total dissolved solids concentration ranging from approximately 162 to 255 milligrams per liter.

Hearing Procedures: The hearing will be conducted pursuant to the NMED Permit Procedures regulations, 20.1.4 NMAC, and the NMED Ground and Surface Water Protection regulations, 20.6.2.3110 NMAC. Any member of the public may attend the hearing and present relevant non-technical testimony, orally or in writing, and to examine witnesses testifying at the hearing. To be a party or to present technical testimony, a person must follow the procedures below:

Entry of Appearance Required to be a Party: Any person who wishes to be a party shall file with the Hearing Clerk, and serve upon all other parties of record, including NMED and the Applicants, an Entry of Appearance on or before January 5, 2018.

Statement of Intent to Present Technical Testimony Required: Any person who wishes to present technical evidence, data, or testimony at the hearing shall file with the Hearing Clerk and serve on the Applicants, NMED, and all other parties of record a Statement of Intent to Present Technical Testimony on or before January 5, 2018, pursuant to 20.6.2.3110.C NMAC. A timely filed Statement of Intent shall be considered an Entry of Appearance. The Statement of Intent must comply with the requirements in 20.1.4.300 NMAC and 20.6.2.3110.C NMAC and shall include: the name of the person filing the statement, whether the person filing the statement supports or opposes the proposed permit, the name/address/affiliation/work background/educational background of each witness, the estimated length of direct testimony of each witness, a list of exhibits to be offered into evidence at the hearing with a copy of each exhibit that is not already part of the Record Proper, a list of all technical materials – and information where the material can be obtained – relied upon by each witness in making a technical statement of fact or opinion and an explanation of the basis for such an opinion, and the full written direct testimony of each witness including any exhibits to be offered by each witness.

address including any opinions to be entered by such witness and an explanation of the basis for that opinion.

Failure to file a timely Entry of Appearance or Statement of Intent to Present Technical Testimony shall preclude a person from being a party to the proceeding and from presenting technical testimony, but shall not preclude a person from presenting a general written or oral statement or non-technical testimony in the proceeding.

Final Determination on Permit by NMED: The Secretary of NMED will make a final determination approving, conditionally approving, or disapproving DP-1132 based on the administrative record for the permit application, public comment, and the public hearing.

Documents Filed with Hearing Clerk: All documents that need to be filed with the Hearing Clerk shall be submitted to: Linda Vigil, Hearing Clerk, NMED, P.O. Box 5469, 1190 St. Francis Drive, Santa Fe, New Mexico 87502, (505) 827-2855.

Documents Served on NMED: All documents that need to be served on NMED shall be sent to: John Verheul, NMED Office of General Counsel, 121 Teras Avenue NE, Ste 1000, Albuquerque, New Mexico 87102, or John.Verheul@state.nm.us.

Further Information and NMED Contact: For further information on DP-1132 and the public hearing, or to be placed on the facility-specific mailing list, please contact Steve Pullen, NMED Ground Water Quality Bureau (GWQB), P.O. Box 5469, 1190 St. Francis Drive, Santa Fe, New Mexico 87502-5469, at (505) 827-2919, or at steve.pullen@state.nm.us. The administrative record and copies of the proposed permit can be viewed at the GWQB.

If any person requires assistance, an interpreter or auxiliary aid to participate in this process, please contact Linda Vigil at (505) 827-2855, or submit a written request to Ms. Vigil, at least ten (10) calendar days prior to the hearing at NMED, P.O. Box 5469, Santa Fe, New Mexico 87502, or Linda.Vigil2@state.nm.us.

NMED does not discriminate on the basis of race, color, national origin, disability, age or sex in the administration of its programs or activities, as required by applicable laws and regulations. NMED is responsible for coordination of compliance efforts and receipt of inquiries concerning non-discrimination requirements implemented by 40 C.F.R. Part 7, including Title VI of the Civil Rights Act of 1964, as amended; Section 504 of the Rehabilitation Act of 1973; the Age Discrimination Act of 1975, Title IX of the Education Amendments of 1972, and Section 13 of the Federal Water Pollution Control Act Amendments of 1972. If you have any questions about this notice or any of NMED's non-discrimination programs, policies or procedures, you may contact: Kristine Pintado, Non-Discrimination Coordinator, New Mexico Environment Department, 1190 St. Francis Dr., Suite N4050, P.O. Box 5469, Santa Fe, NM 87502, (505) 827-2855, nd.coordinator@state.nm.us. If you believe that you have been discriminated against with respect to a NMED program or activity, you may contact the Non-Discrimination Coordinator identified above.

Transcripts of Hearing: Pursuant to 20.6.2.3110.J NMAC, NMED will make an audio recording of the hearing. If any person requests a written transcript or certified copy of the audio recording, the requestor shall pay the cost of the transcription or audio copying.

**United States Department of Energy and Los Alamos National Security,
LLC - DP-1132 - Radioactive Liquid Waste Treatment Facility**

The New Mexico Environment Department (NMED) will hold a public hearing beginning at **9:00 a.m. on January 17, 2018**, and continuing on as needed, at the **University of New Mexico, Los Alamos, Lecture Hall, Building 2, Room 230, located at 400 University Drive, in Los Alamos, New Mexico**. The hearing will consider the proposed ground water discharge permit (Discharge Permit or DP-1132) prepared in response to a discharge plan submitted by the United States Department of Energy and Los Alamos National Security, LLC (DOE/LANS or Applicants). The Hearing Officer will provide opportunities for general oral statements or non-technical testimony from members of the public before the conclusion of the hearing.

El Departamento del Medio Ambiente de Nuevo México (NMED por su sigla en inglés) celebrará una audiencia pública que comenzará a las **9:00 de la mañana del 17 de enero de 2018**, y que continuará como sea necesario, en el **auditorio ubicado en la Sala 230 del Edificio 2 de la Universidad de Nuevo México en Los Álamos, cuya dirección es 400 University Drive, Los Álamos, Nuevo México**. La audiencia considerará el permiso de descarga en aguas subterráneas propuesto (Permiso de Descarga o DP-1132), preparado en respuesta a un plan de descarga presentado por el Departamento de Energía de Estados Unidos y Los Alamos National Security, LLC (DOE/LANS o Solicitantes). El Funcionario de Audiencias dará oportunidades a los asistentes del público para presentar declaraciones orales generales o testimonio que no sea de carácter técnico antes de la conclusión de la audiencia.

Notice of Public Hearing (English)

Aviso de Audiencia Pública (Español)

DP-1132 Draft Permit

Publishing notice in a newspaper of general circulation in this state and a newspaper of general circulation in the location of the facility;

The notice published in English and Spanish in the Albuquerque Journal (state wide), Los Alamos Monitor (location of facility), and Santa Fe New Mexican on 12/15/17

ABQ Journal:

English: <http://legals.abqjournal.com/legals/show/401955>

Spanish: <http://legals.abqjournal.com/legals/show/401956>

Los Alamos Monitor:

http://www.publicnoticeads.com/NM/search/view.asp?T=PN&id=3100/12122017_24487009.htm

Santa Fe New Mexican: I have confirmed with SFNM staff that the notice published on 12/15/17; however, the notice does not appear to be available online.

Mailing or e-mailing to those persons on a facility-specific mailing list;

The interested party was identified as "DP1132 IntParty 05-08-17" from TEMPO AI-856 PRD20140008. This interested parties list was created in May 2017 as a combination of all previous interested parties for this permitting action. Steve Pullen confirmed that no additional parties had indicated interest since the creation of the referred interested parties list. Interested party contact information was updated or supplemented if additional information could be found. Interested parties providing both an address and email received both physical mail and the listserv.

In addition, the listserv reached subscribers of the PN1 and PN2 (691 recipients)

Please see attached copy of listserv sent 12/15/17.

Please see rows 2-16 of the attached spreadsheet "DP-1132 Hearing Mailout contacts" for mailout conducted on 12/15/17

Mailing to any affected local, state, or federal governmental agency, ditch associations and land grants, as identified by the department; and

Local governmental agencies were identified as the city of Los Alamos and County Commissioners for Los Alamos, Santa Fe, and Sandoval counties

State and Federal agencies identified are listed on rows 17-28 of the attached spreadsheet "DP-1132 Hearing Mailout contacts"

Ditch associations for Los Alamos, Santa Fe, and Sandoval counties were identified using the list of Surface Water Irrigation Organizations in New Mexico retrieved from: <http://www.nmacequiacommission.state.nm.us/organizations.html>

Land Grants were identified as those within (in whole or in part) Los Alamos, Santa Fe, and Sandoval counties. An update to land grant contact information from the New Mexico Land Grant Council became available on 12/18/17. I will review the additional contact information today and intend to send a copy of the hearing notice in English and Spanish to any additional or updated land grant contacts identified within Los Alamos, Santa Fe, and Sandoval counties.

Mailing to the governor, chairperson, or president of each Indian tribe, pueblo or nation within the state of New Mexico, as identified by the department.

All contacts listed on the webpages below were sent the notice of hearing in English and Spanish by physical mail

<http://www.iad.state.nm.us/apaches.html>

**NOTICE OF PUBLIC HEARING
NEW MEXICO ENVIRONMENT DEPARTMENT**

English

ABQ Journal
LA Monitor
SF New Mexico

The New Mexico Environment Department (NMED) will hold a public hearing beginning at 9:00 a.m. on January 17, 2018, and continuing on as needed, at the University of New Mexico, Los Alamos, Lecture Hall, Building 2, Room 230, located at 400 University Drive, in Los Alamos, New Mexico. The hearing will consider the proposed ground water discharge permit (Discharge Permit or DP-1132) prepared in response to a discharge plan submitted by the United States Department of Energy and Los Alamos National Security, LLC (DOE/LANS or Applicants). The Hearing Officer will provide opportunities for general oral statements or non-technical testimony from members of the public before the conclusion of the hearing.

Name of the Applicants: United States Department of Energy and Los Alamos National Security, LLC. (DOE/LANS)

Location of the Discharge: The discharge is located within Los Alamos National Laboratory (LANL), approximately 1.5 miles south of Los Alamos, New Mexico, in Sections 16, 17, 20, 21 and 22, Township 19N, Range 06E, Los Alamos County.

Activities Which Produce the Discharge: The Radioactive Liquid Waste Treatment Facility (RLWTF) is a wastewater treatment facility that receives and treats radioactive liquid waste (RLW) from waste generating locations at LANL. The Discharge Permit authorizes the use of the RLWTF's multiple systems and associated units, including: the influent collection system; the influent storage system, i.e., the Waste Management Risk Mitigation Facility (WMRM); the low-level radioactive liquid waste treatment system; the transuranic wastewater treatment system; and the secondary treatment system. RLW treatment processes include chemical treatment in a reaction tank, filtration, ion exchange, and reverse osmosis. The Discharge Permit authorizes the discharge of treated water via the Mechanical Evaporator System (MES) and the Solar Evaporative Tank (SET) at TA-52. The discharge of treated water at an outfall (Outfall 051) is authorized by a National Pollutant Discharge Elimination System (NPDES) permit issued by the United States Environmental Protection Agency (EPA) pursuant to the federal Clean Water Act Section 402, 33 U.S.C § 1342.

Quality, Quantity, and Flow Characteristics of the Discharge: Up to 40,000 gallons per day may be discharged via the three processes identified above. The discharge may contain water contaminants with concentrations above the standards of 20.6.2.3103 NMAC and may contain toxic pollutants as defined in 20.6.2.7.WW NMAC.

Depth to Groundwater: Groundwater most likely to be affected ranges from depths of approximately one foot to 1,306 feet, and has a total dissolved solids concentration ranging from approximately 162 to 255 milligrams per liter.

Hearing Procedures: The hearing will be conducted pursuant to the NMED Permit Procedures regulations, 20.1.4 NMAC, and the NMED Ground and Surface Water Protection regulations, 20.6.2.3110 NMAC. Any member of the public may attend the hearing and present relevant non-

technical testimony, orally or in writing, and to examine witnesses testifying at the hearing. To be a party or to present technical testimony, a person must follow the procedures below:

Entry of Appearance Required to be a Party: Any person who wishes to be a party shall file with the Hearing Clerk, and serve upon all other parties of record, including NMED and the Applicants, an *Entry of Appearance* on or before **January 5, 2018**.

Statement of Intent to Present Technical Testimony Required: Any person who wishes to present technical evidence, data, or testimony at the hearing shall file with the Hearing Clerk and serve on the Applicants, NMED, and all other parties of record a *Statement of Intent to Present Technical Testimony* on or before **January 5, 2018**, pursuant to 20.6.2.3110.C NMAC. A timely filed Statement of Intent shall be considered an Entry of Appearance. The Statement of Intent must comply with the requirements in 20.1.4.300 NMAC and 20.6.2.3110.C NMAC and shall include: the name of the person filing the statement, whether the person filing the statement supports or opposes the proposed permit, the name/address/affiliation/work background/educational background of each witness, the estimated length of direct testimony of each witness, a list of exhibits to be offered into evidence at the hearing with a copy of each exhibit that is not already part of the Record Proper, a list of all technical materials – and information where the material can be obtained – relied upon by each witness in making a technical statement of fact or opinion and an explanation of the basis for such an opinion, and the full written direct testimony of each witness including any opinions to be offered by such witness and an explanation of the basis for that opinion.

Failure to file a timely Entry of Appearance or Statement of Intent to Present Technical Testimony shall preclude a person from being a party to the proceeding and from presenting technical testimony, but shall not preclude a person from presenting a general written or oral statement or non-technical testimony in the proceeding.

Final Determination on Permit by NMED: The Secretary of NMED will make a final determination approving, conditionally approving, or disapproving DP-1132 based on the administrative record for the permit application, public comment, and the public hearing.

Documents Filed with Hearing Clerk: All documents that need to be filed with the Hearing Clerk shall be submitted to: Linda Vigil, Hearing Clerk, NMED, P.O. Box 5469, 1190 St. Francis Drive, Santa Fe, New Mexico 87502, (505) 827-2855.

Documents Served on NMED: All documents that need to be served on NMED shall be sent to: John Verheul, NMED Office of General Counsel, 121 Tijeras Avenue NE, Ste 1000, Albuquerque, New Mexico 87102, or John.Verheul@state.nm.us.

Further Information and NMED Contact: For further information on DP-1132 and the public hearing, or to be placed on the facility-specific mailing list, please contact Steve Pullen, NMED Ground Water Quality Bureau (GWQB), P.O. Box 5469, 1190 St. Francis Drive, Santa Fe, New Mexico 87502-5469, at (505) 827- 2919, or at steve.pullen@state.nm.us. The administrative record and copies of the proposed permit can be viewed at the GWQB.

If any person requires assistance, an interpreter or auxiliary aid to participate in this process, please contact Linda Vigil at (505) 827-2855, or submit a written request to Ms. Vigil, at least ten (10) calendar days prior to the hearing at NMED, P.O. Box 5469, Santa Fe, New Mexico 87502, or Linda.Vigil2@state.nm.us.

NMED does not discriminate on the basis of race, color, national origin, disability, age or sex in the administration of its programs or activities, as required by applicable laws and regulations. NMED is responsible for coordination of compliance efforts and receipt of inquiries concerning non-discrimination requirements implemented by 40 C.F.R. Part 7, including Title VI of the Civil Rights Act of 1964, as amended; Section 504 of the Rehabilitation Act of 1973; the Age Discrimination Act of 1975, Title IX of the Education Amendments of 1972, and Section 13 of the Federal Water Pollution Control Act Amendments of 1972. If you have any questions about this notice or any of NMED's non-discrimination programs, policies or procedures, you may contact: Kristine Pintado, Non-Discrimination Coordinator, New Mexico Environment Department, 1190 St. Francis Dr., Suite N4050, P.O. Box 5469, Santa Fe, NM 87502, (505) 827-2855, nd.coordinator@state.nm.us. If you believe that you have been discriminated against with respect to a NMED program or activity, you may contact the Non-Discrimination Coordinator identified above.

Transcripts of Hearing. Pursuant to 20.6.2.3110.J NMAC, NMED will make an audio recording of the hearing. If any person requests a written transcript or certified copy of the audio recording, the requestor shall pay the cost of the transcription or audio copying.

AVISO DE AUDIENCIA PÚBLICA
DEPARTAMENTO DEL MEDIO AMBIENTE DE NUEVO MÉXICO

El Departamento del Medio Ambiente de Nuevo México (NMED por su sigla en inglés) celebrará una audiencia pública que comenzará a las 9:00 de la mañana del 17 de enero de 2018, y que continuará como sea necesario, en el auditorio ubicado en la Sala 230 del Edificio 2 de la Universidad de Nuevo México en Los Álamos, cuya dirección es 400 University Drive, Los Álamos, Nuevo México. La audiencia considerará el permiso de descarga en aguas subterráneas propuesto (Permiso de Descarga o DP-1132), preparado en respuesta a un plan de descarga presentado por el Departamento de Energía de Estados Unidos y Los Alamos National Security, LLC (DOE/LANS o Solicitantes). El Funcionario de Audiencias dará oportunidades a los asistentes del público para presentar declaraciones orales generales o testimonio que no sea de carácter técnico antes de la conclusión de la audiencia.

Nombre de los Solicitantes: Departamento de Energía de Estados Unidos y Los Alamos National Security, LLC. (DOE/LANS)

Ubicación de la descarga: La descarga se encuentra dentro del Laboratorio Nacional Los Álamos (LANL), aproximadamente 1.5 millas al sur de Los Álamos, Nuevo México, en las Secciones 16, 17, 20, 21 y 22; Distrito Municipal (*Township*) 19N; Zona (*Range*) 06E; condado de Los Álamos.

Actividades que producen la descarga: La Planta de Tratamiento de Residuos Líquidos Radioactivos (RLWTF por su sigla en inglés) es una planta de tratamiento de aguas residuales que recibe y trata residuos líquidos radioactivos (RLW por su sigla en inglés) de los sectores generadores de residuos de LANL. El Permiso de Descarga autoriza el uso de múltiples sistemas y de unidades asociadas de la planta RLWTF, que incluyen: el sistema de recolección de afluentes; el sistema de almacenamiento de afluentes, que corresponde a las Instalaciones de Mitigación de Riesgo del Manejo de Residuos (WMRM por su sigla en inglés); el sistema de tratamiento de residuos líquidos de bajo nivel radioactivo; el sistema de tratamiento de aguas residuales transuránicas; y el sistema de tratamiento secundario. Los procesos de tratamiento de RLW incluyen tratamiento químico en un tanque de reacción, filtración, intercambio iónico y ósmosis inversa. El Permiso de Descarga autoriza la descarga del agua tratada por medio del Sistema Evaporador Mecánico (MES por su sigla en inglés) y el Tanque de Evaporación Solar (SET) en el Área Técnica TA-52. La descarga de agua tratada en un desagüe (Desagüe 051) está autorizada por un permiso del Sistema Nacional de Eliminación de Descargas de Contaminantes (NPDES por su sigla en inglés) otorgado por la Agencia de Protección Ambiental (EPA por su sigla en inglés) de Estados Unidos conforme a la Ley Federal de Agua Limpia, Sección 402, 33 U.S.C § 1342.

Calidad, cantidad y características del flujo de la descarga: Mediante los tres procesos antes identificados, se podrán descargar hasta 40,000 galones por día. La descarga podrá contener contaminantes del agua con concentraciones superiores a los estándares de 20.6.2.3103 NMAC y podrá contener contaminantes tóxicos según lo definido en 20.6.2.7.WW NMAC.

Profundidad a la que se encuentran las aguas subterráneas: Las aguas subterráneas con mayor probabilidad de ser afectadas se encuentran en un rango de profundidades de uno a 1,306 pies aproximadamente, y tienen una concentración de sólidos disueltos totales en un rango de 162 a 255 miligramos por litro aproximadamente.

Procedimientos seguidos en las audiencias: La audiencia se llevará a cabo conforme al reglamento de Procedimientos para obtener permisos del NMED, 20.1.4 NMAC, y el reglamento para la Protección de Aguas Subterráneas y Aguas Superficiales del NMED, 20.6.2.3110 NMAC. El público podrá asistir a la audiencia y presentar testimonio que no sea de carácter técnico, ya sea oralmente o por escrito, e interrogar a los testigos que declaren durante la audiencia. Para ser parte interesada o para presentar testimonio técnico, se deberán seguir los siguientes procedimientos:

Registro de comparecencia exigido para ser Parte interesada: Quienes deseen ser parte interesada deberán presentar ante la Secretaria de Audiencias, y notificar a todas las demás partes reconocidas, incluidos el NMED y los Solicitantes, un Registro de comparecencia (*Entry of Appearance*) a más tardar el **5 de enero de 2018**.

Declaración de intención de presentar testimonio técnico exigida: Quienes deseen presentar pruebas, datos o testimonio de carácter técnico durante la audiencia deberán presentar ante la Secretaria de Audiencias, y notificar a los Solicitantes, al NMED y a todas las demás partes reconocidas, una Declaración de intención de presentar testimonio técnico (*Statement of Intent to Present Technical Testimony*) a más tardar el **5 de enero de 2018**, conforme a 20.6.2.3110.C NMAC. Toda Declaración de intención oportunamente presentada se considerará como Registro de comparecencia. La Declaración de intención debe cumplir con los requisitos indicados en 20.1.4.300 NMAC y 20.6.2.3110.C NMAC, y debe incluir: el nombre de la persona que presenta la declaración; si la persona que presenta la declaración apoya o se opone al permiso propuesto; nombre/dirección/afiliación/antecedentes laborales/antecedentes educativos de cada testigo; la duración aproximada del testimonio directo de cada testigo; una lista de documentos u objetos de prueba que se ofrecerán como pruebas durante la audiencia, con una copia de cada documento u objeto de prueba que aún no forma parte del Registro Administrativo; una lista de todos los materiales técnicos –y la información sobre dónde se puede obtener el material– en los que se base cada testigo en su declaración de carácter técnico de hechos u opiniones y una explicación del fundamento de dicha opinión; y el testimonio directo completo por escrito de cada testigo, incluidas las opiniones que ofrecerá dicho testigo y una explicación del fundamento de esa opinión.

La falta de presentación oportuna de un Registro de comparecencia o de una Declaración de intención de presentar testimonio técnico impedirá que esa persona sea parte interesada del procedimiento y que presente testimonio técnico, pero no impedirá que esa persona presente una declaración de carácter general por escrito o en forma oral, o testimonio que no sea de carácter técnico durante el procedimiento.

Determinación final del NMED sobre el Permiso: El Secretario del NMED hará una determinación final de aprobar, aprobar condicionalmente o rechazar el DP-1132 según el

registro administrativo para la solicitud del permiso, los comentarios del público y la audiencia pública.

Documentos presentados ante la Secretaría de Audiencias: Todos los documentos que deban presentarse ante la Secretaría de Audiencias deberán enviarse a: Linda Vigil, Hearing Clerk, NMED, P.O. Box 5469, 1190 St. Francis Drive, Santa Fe, New Mexico 87502, (505) 827-2855.

Documentos entregados al NMED: Todos los documentos que deban entregarse al NMED deberán enviarse a: John Verheul, NMED Office of General Counsel, 121 Tijeras Avenue NE, Ste 1000, Albuquerque, New Mexico 87102, o John.Verheul@state.nm.us.

Información adicional y contacto con el NMED: Para obtener más información sobre el DP-1132 y la audiencia pública o para pedir que se le incluya en la lista de correos para instalaciones específicas, sírvase comunicarse con Steve Pullen, NMED Ground Water Quality Bureau (GWQB), P.O. Box 5469, 1190 St. Francis Drive, Santa Fe, New Mexico 87502-5469, llamando al (505) 827- 2919, o en steve.pullen@state.nm.us. El registro administrativo y las copias del permiso propuesto pueden examinarse en la Oficina de Calidad de las Aguas Subterráneas (GWQB).

Todo aquel que necesite asistencia, un intérprete o un dispositivo auxiliar para participar en este proceso deberá comunicarse con Linda Vigil llamando al (505) 827-2855 o mediante un pedido escrito a la Srta. Vigil al menos diez (10) días calendario antes de la audiencia a: NMED, P.O. Box 5469, Santa Fe, New Mexico 87502, o Linda.Vigil2@state.nm.us.

El NMED no discrimina por motivos de raza, color, origen nacional, discapacidad, edad o sexo en la administración de sus programas o actividades, según lo exigido por las leyes y los reglamentos correspondientes. El NMED es responsable de la coordinación de esfuerzos para el cumplimiento de las reglas y la recepción de indagaciones relativas a los requisitos de no discriminación implementados por 40 C.F.R. Parte 7, que incluye el Título VI de la Ley de Derechos Civiles de 1964, como fuera enmendado; la Sección 504 de la Ley de Rehabilitación de 1973; la Ley de Discriminación por Edad de 1975; el Título IX de las Enmiendas de Educación de 1972; y la Sección 13 de las Enmiendas a la Ley Federal de Control de la Contaminación del Agua de 1972. Si tiene preguntas sobre este aviso o sobre cualquier programa, política o procedimiento de no discriminación del NMED, puede comunicarse con la Coordinadora de No Discriminación: Kristine Pintado, Non-Discrimination Coordinator, New Mexico Environment Department, 1190 St. Francis Dr., Suite N4050, P.O. Box 5469, Santa Fe, NM 87502, (505) 827-2855, nd.coordinator@state.nm.us. Si piensa que ha sido discriminado con respecto a un programa o actividad del NMED, puede comunicarse con la Coordinadora de No Discriminación antes indicada.

Transcripciones de la audiencia. Conforme a 20.6.2.3110.J NMAC, el NMED hará una grabación de audio de la audiencia. Si una persona solicita una transcripción escrita o una copia certificada del audio grabado, esa persona deberá pagar el costo de la transcripción o de la copia del audio.

New Mexico Environment Department – Ground Water Quality Bureau

Notice is hereby given pursuant to 20.6.2.3108.G NMAC, the following Groundwater Discharge Permit applications have been proposed for approval. To request additional information or to obtain a copy of a draft permit, contact the Ground Water Quality Bureau in Santa Fe at (505) 827-2900. Draft permits may also be viewed on-line at <https://www.env.nm.gov/gwb/NMED-GWQB-PublicNotice.htm>

DP-1132 - The Radioactive Liquid Waste Treatment Facility (RLWTF) is a wastewater treatment facility that is authorized to discharge up to 40,000 gallons per day (gpd) and consists of a collection, storage, treatment, and disposal system (including the Waste Management Risk Mitigation Facility or WMRM); the low-level radioactive liquid waste treatment system; the transuranic waste water treatment system; the secondary treatment system; the Mechanical Evaporator System (MES); the Solar Evaporative Tank (SET) impoundment; and an outfall (Outfall 051) regulated by a National Pollutant Discharge Elimination System (NPDES) permit issued by the United States Environmental Protection Agency (EPA) pursuant to the federal Clean Water Act Section 402, 33 U.S.C § 1342. The facility is located within Los Alamos National Laboratory, approximately 1.5 miles south of Los Alamos, New Mexico, in Sections 16, 17, 20, 21, and 22, T19N, R06E, Los Alamos County. Groundwater most likely to be affected ranges from depths of approximately one foot to 1,306 feet and has a total dissolved solids concentration ranging from approximately 162 to 255 milligrams per liter. The discharge may contain water contaminants with concentrations above the standards of 20.6.2.3103 NMAC and may contain toxic pollutants as defined in 20.6.2.7.WW NMAC.

The New Mexico Environment Department (NMED) is reissuing this public notice to inform the public that the previously noticed Discharge Permit included an older version of the closure plan. With this notice, NMED provides the current and correct version of the closure plan. NMED contact: Steve Pullen at steve.pullen@state.nm.us or 505-827-2962.

Prior to ruling on any proposed Discharge Permit or its modification, the New Mexico Environment Department, (NMED) will allow thirty days after the date of publication of this notice to receive written comments and during which a public hearing may be requested by any interested person, including the applicant. Requests for public hearing shall be in writing and shall set forth the reasons why the hearing should be held. A hearing will be held if NMED determines that there is substantial public interest. Comments for requests for hearing should be submitted to the Ground Water Quality Bureau at PO Box 5469, Santa Fe, NM 87502-5469.

NMED does not discriminate on the basis of race, color, national origin, disability, age or sex in the administration of its programs or activities, as required by applicable laws and regulations. NMED is responsible for coordination of compliance efforts and receipt of inquiries concerning non-discrimination requirements implemented by 40 C.F.R. Part 7, including Title VI of the Civil Rights Act of 1964, as amended; Section 504 of the Rehabilitation Act of 1973; the Age Discrimination Act of 1975, Title IX of the Education Amendments of 1972, and Section 13 of the Federal Water Pollution Control Act Amendments of 1972. If you have any questions about this notice or any of NMED's non-discrimination programs, policies or procedures, you may contact: Kristine Pintado, Non-Discrimination Coordinator, New Mexico Environment Department, 1190 St. Francis Dr., Suite N4050, P.O. Box 5469, Santa Fe, NM 87502, (505) 827-2855, nd.coordinator@state.nm.us. If you believe that you have been discriminated against with respect to a NMED program or activity, you may contact the Non-Discrimination Coordinator identified above or visit our website at <https://www.env.nm.gov/non-employee-discrimination-complaint-page/> to learn how and where to file a complaint of discrimination.

**NOTICE OF PUBLIC HEARING
NEW MEXICO ENVIRONMENT DEPARTMENT**

English

The New Mexico Environment Department (NMED) will hold a public hearing beginning at 9:00 a.m. on April 19, 2018, and continuing on as needed, at the Fuller Lodge Art Center, Pajarito Room, located at 2132 Central Avenue, in Los Alamos, New Mexico. This hearing is being held in lieu of the public hearing previously scheduled for January 17, 2018. The hearing will consider the proposed ground water discharge permit (Discharge Permit or DP-1132) prepared in response to a discharge plan submitted by the United States Department of Energy and Los Alamos National Security, LLC (DOE/LANS or Applicants). The Hearing Officer will provide opportunities for general oral statements or non-technical testimony from members of the public before the conclusion of the hearing.

Name of the Applicants: United States Department of Energy and Los Alamos National Security, LLC. (DOE/LANS)

Location of the Discharge: The discharge is located within Los Alamos National Laboratory (LANL), approximately 1.5 miles south of Los Alamos, New Mexico, in Sections 16, 17, 20, 21 and 22, Township 19N, Range 06E, Los Alamos County.

Activities Which Produce the Discharge: The Radioactive Liquid Waste Treatment Facility (RLWTF) is a wastewater treatment facility that receives and treats radioactive liquid waste (RLW) from waste generating locations at LANL. The Discharge Permit authorizes the use of the RLWTF's multiple systems and associated units, including: the influent collection system; the influent storage system, i.e., the Waste Management Risk Mitigation Facility (WMRM); the low-level radioactive liquid waste treatment system; the transuranic wastewater treatment system; and the secondary treatment system. RLW treatment processes include chemical treatment in a reaction tank, filtration, ion exchange, and reverse osmosis. The Discharge Permit authorizes the discharge of treated water via the Mechanical Evaporator System (MES) and the Solar Evaporative Tank (SET) at TA-52. The discharge of treated water at an outfall (Outfall 051) is authorized by a National Pollutant Discharge Elimination System (NPDES) permit issued by the United States Environmental Protection Agency (EPA) pursuant to the federal Clean Water Act Section 402, 33 U.S.C § 1342.

Quality, Quantity, and Flow Characteristics of the Discharge: Up to 40,000 gallons per day may be discharged via the three processes identified above. The discharge may contain water contaminants with concentrations above the standards of 20.6.2.3103 NMAC and may contain toxic pollutants as defined in 20.6.2.7.WW NMAC.

Depth to Groundwater: Groundwater most likely to be affected ranges from depths of approximately one foot to 1,306 feet, and has a total dissolved solids concentration ranging from approximately 162 to 255 milligrams per liter.

Hearing Procedures: The hearing will be conducted pursuant to the NMED Permit Procedures regulations, 20.1.4 NMAC, and the NMED Ground and Surface Water Protection regulations, 20.6.2.3110 NMAC. Any member of the public may attend the hearing and present relevant non-

technical testimony, orally or in writing, and to examine witnesses testifying at the hearing. To be a party or to present technical testimony, a person must follow the procedures below:

Entry of Appearance Required to be a Party: Any person who wishes to be a party shall file with the Hearing Clerk, and serve upon all other parties of record, including NMED and the Applicants, an *Entry of Appearance* on or before **April 9, 2018**.

Statement of Intent to Present Technical Testimony Required: Any person who wishes to present technical evidence, data, or testimony at the hearing shall file with the Hearing Clerk and serve on the Applicants, NMED, and all other parties of record a *Statement of Intent to Present Technical Testimony* on or before **April 9, 2018**, pursuant to 20.6.2.3110.C NMAC. A timely filed Statement of Intent shall be considered an Entry of Appearance. The Statement of Intent must comply with the requirements in 20.1.4.300 NMAC and 20.6.2.3110.C NMAC and shall include: the name of the person filing the statement, whether the person filing the statement supports or opposes the proposed permit, the name/address/affiliation/work background/educational background of each witness, the estimated length of direct testimony of each witness, a list of exhibits to be offered into evidence at the hearing with a copy of each exhibit that is not already part of the Record Proper, a list of all technical materials – and information where the material can be obtained – relied upon by each witness in making a technical statement of fact or opinion and an explanation of the basis for such an opinion, and the full written direct testimony of each witness including any opinions to be offered by such witness and an explanation of the basis for that opinion.

Failure to file a timely Entry of Appearance or Statement of Intent to Present Technical Testimony shall preclude a person from being a party to the proceeding and from presenting technical testimony, but shall not preclude a person from presenting a general written or oral statement or non-technical testimony in the proceeding.

Final Determination on Permit by NMED: The Secretary of NMED will make a final determination approving, conditionally approving, or disapproving DP-1132 based on the administrative record for the permit application, public comment, and the public hearing.

Documents Filed with Hearing Clerk: All documents that need to be filed with the Hearing Clerk shall be submitted to: Pam Castaneda, Hearing Clerk, NMED, P.O. Box 5469, 1190 St. Francis Drive, Santa Fe, New Mexico 87502, (505) 827-2425.

Documents Served on NMED: All documents that need to be served on NMED shall be sent to: John Verheul, NMED Office of General Counsel, 121 Tijeras Avenue NE, Ste 1000, Albuquerque, New Mexico 87102, or John.Verheul@state.nm.us.

Further Information and NMED Contact: For further information on DP-1132 and the public hearing, or to be placed on the facility-specific mailing list, please contact Steve Pullen, NMED Ground Water Quality Bureau (GWQB), P.O. Box 5469, 1190 St. Francis Drive, Santa Fe, New Mexico 87502-5469, at (505) 827-2962, or at steve.pullen@state.nm.us. The administrative record and copies of the proposed permit can be viewed at the GWQB.

If any person requires assistance, an interpreter or auxiliary aid to participate in this process, please contact Pam Castaneda at (505) 827-2425, or submit a written request to Ms. Castaneda, at least ten (10) calendar days prior to the hearing at NMED, P.O. Box 5469, Santa Fe, New Mexico 87502, or Pam.Castaneda@state.nm.us.

NMED does not discriminate on the basis of race, color, national origin, disability, age or sex in the administration of its programs or activities, as required by applicable laws and regulations. NMED is responsible for coordination of compliance efforts and receipt of inquiries concerning non-discrimination requirements implemented by 40 C.F.R. Part 7, including Title VI of the Civil Rights Act of 1964, as amended; Section 504 of the Rehabilitation Act of 1973; the Age Discrimination Act of 1975, Title IX of the Education Amendments of 1972, and Section 13 of the Federal Water Pollution Control Act Amendments of 1972. If you have any questions about this notice or any of NMED's non-discrimination programs, policies or procedures, you may contact: Kristine Pintado, Non-Discrimination Coordinator, New Mexico Environment Department, 1190 St. Francis Dr., Suite N4050, P.O. Box 5469, Santa Fe, NM 87502, (505) 827-2855, nd.coordinator@state.nm.us. If you believe that you have been discriminated against with respect to a NMED program or activity, you may contact the Non-Discrimination Coordinator identified above.

Transcripts of Hearing. Pursuant to 20.6.2.3110.J NMAC, NMED will make an audio recording of the hearing. If any person requests a written transcript or certified copy of the audio recording, the requestor shall pay the cost of the transcription or audio copying.

AVISO DE AUDIENCIA PÚBLICA
DEPARTAMENTO DEL MEDIO AMBIENTE DE NUEVO MÉXICO

El Departamento del Medio Ambiente de Nuevo México (NMED por su sigla en inglés) celebrará una audiencia pública que comenzará a las 9:00 de la mañana del 19 de abril de 2018, y que continuará como sea necesario, en el auditorio ubicado en la Sala Pajarito del Centro de Arte Fuller Lodge, cuya dirección es 2132 Central Avenue, Los Álamos, Nuevo México. Esta audiencia se llevará a cabo en lugar de la audiencia pública previamente programada para el 17 de enero de 2018. La audiencia considerará el permiso de descarga en aguas subterráneas propuesto (Permiso de Descarga o DP-1132), preparado en respuesta a un plan de descarga presentado por el Departamento de Energía de Estados Unidos y Los Alamos National Security, LLC (DOE/LANS o Solicitantes). El Funcionario de Audiencias dará oportunidades a los asistentes del público para presentar declaraciones orales generales o testimonio que no sea de carácter técnico antes de la conclusión de la audiencia.

Nombre de los Solicitantes: Departamento de Energía de Estados Unidos y Los Alamos National Security, LLC. (DOE/LANS)

Ubicación de la descarga: La descarga se encuentra dentro del Laboratorio Nacional Los Álamos (LANL), aproximadamente 1.5 millas al sur de Los Álamos, Nuevo México, en las Secciones 16, 17, 20, 21 y 22; Distrito Municipal (*Township*) 19N; Zona (*Range*) 06E; condado de Los Álamos.

Actividades que producen la descarga: La Planta de Tratamiento de Residuos Líquidos Radioactivos (RLWTF por su sigla en inglés) es una planta de tratamiento de aguas residuales que recibe y trata residuos líquidos radioactivos (RLW por su sigla en inglés) de los sectores generadores de residuos de LANL. El Permiso de Descarga autoriza el uso de múltiples sistemas y de unidades asociadas de la planta RLWTF, que incluyen: el sistema de recolección de afluentes; el sistema de almacenamiento de afluentes, que corresponde a las Instalaciones de Mitigación de Riesgo del Manejo de Residuos (WMRM por su sigla en inglés); el sistema de tratamiento de residuos líquidos de bajo nivel radioactivo; el sistema de tratamiento de aguas residuales transuránicas; y el sistema de tratamiento secundario. Los procesos de tratamiento de RLW incluyen tratamiento químico en un tanque de reacción, filtración, intercambio iónico y ósmosis inversa. El Permiso de Descarga autoriza la descarga del agua tratada por medio del Sistema Evaporador Mecánico (MES por su sigla en inglés) y el Tanque de Evaporación Solar (SET) en el Área Técnica TA-52. La descarga de agua tratada en un desagüe (Desagüe 051) está autorizada por un permiso del Sistema Nacional de Eliminación de Descargas de Contaminantes (NPDES por su sigla en inglés) otorgado por la Agencia de Protección Ambiental (EPA por su sigla en inglés) de Estados Unidos conforme a la Ley Federal de Agua Limpia, Sección 402, 33 U.S.C § 1342.

Calidad, cantidad y características del flujo de la descarga: Mediante los tres procesos antes identificados, se podrán descargar hasta 40,000 galones por día. La descarga podrá contener contaminantes del agua con concentraciones superiores a los estándares de 20.6.2.3103 NMAC y podrá contener contaminantes tóxicos según lo definido en 20.6.2.7.WW NMAC.

Profundidad a la que se encuentran las aguas subterráneas: Las aguas subterráneas con mayor probabilidad de ser afectadas se encuentran en un rango de profundidades de uno a 1,306 pies aproximadamente, y tienen una concentración de sólidos disueltos totales en un rango de 162 a 255 miligramos por litro aproximadamente.

Procedimientos seguidos en las audiencias: La audiencia se llevará a cabo conforme al reglamento de Procedimientos para obtener permisos del NMED, 20.1.4 NMAC, y el reglamento para la Protección de Aguas Subterráneas y Aguas Superficiales del NMED, 20.6.2.3110 NMAC. El público podrá asistir a la audiencia y presentar testimonio que no sea de carácter técnico, ya sea oralmente o por escrito, e interrogar a los testigos que declaren durante la audiencia. Para ser parte interesada o para presentar testimonio técnico, se deberán seguir los siguientes procedimientos:

Registro de comparecencia exigido para ser Parte interesada: Quienes deseen ser parte interesada deberán presentar ante la Secretaría de Audiencias, y notificar a todas las demás partes reconocidas, incluidos el NMED y los Solicitantes, un Registro de comparecencia (*Entry of Appearance*) a más tardar el **9 de abril de 2018**.

Declaración de intención de presentar testimonio técnico exigida: Quienes deseen presentar pruebas, datos o testimonio de carácter técnico durante la audiencia deberán presentar ante la Secretaría de Audiencias, y notificar a los Solicitantes, al NMED y a todas las demás partes reconocidas, una Declaración de intención de presentar testimonio técnico (*Statement of Intent to Present Technical Testimony*) a más tardar el **9 de abril de 2018**, conforme a 20.6.2.3110.C NMAC. Toda Declaración de intención oportunamente presentada se considerará como Registro de comparecencia. La Declaración de intención debe cumplir con los requisitos indicados en 20.1.4.300 NMAC y 20.6.2.3110.C NMAC, y debe incluir: el nombre de la persona que presenta la declaración; si la persona que presenta la declaración apoya o se opone al permiso propuesto; nombre/dirección/afiliación/antecedentes laborales/antecedentes educativos de cada testigo; la duración aproximada del testimonio directo de cada testigo; una lista de documentos u objetos de prueba que se ofrecerán como pruebas durante la audiencia, con una copia de cada documento u objeto de prueba que aún no forma parte del Registro Administrativo; una lista de todos los materiales técnicos –y la información sobre dónde se puede obtener el material– en los que se base cada testigo en su declaración de carácter técnico de hechos u opiniones y una explicación del fundamento de dicha opinión; y el testimonio directo completo por escrito de cada testigo, incluidas las opiniones que ofrecerá dicho testigo y una explicación del fundamento de esa opinión.

La falta de presentación oportuna de un Registro de comparecencia o de una Declaración de intención de presentar testimonio técnico impedirá que esa persona sea parte interesada del procedimiento y que presente testimonio técnico, pero no impedirá que esa persona presente una declaración de carácter general por escrito o en forma oral, o testimonio que no sea de carácter técnico durante el procedimiento.

Determinación final del NMED sobre el Permiso: El Secretario del NMED hará una determinación final de aprobar, aprobar condicionalmente o rechazar el DP-1132 según el

registro administrativo para la solicitud del permiso, los comentarios del público y la audiencia pública.

Documentos presentados ante la Secretaria de Audiencias: Todos los documentos que deban presentarse ante la Secretaria de Audiencias deberán enviarse a: Pam Castaneda, Hearing Clerk, NMED, P.O. Box 5469, 1190 St. Francis Drive, Santa Fe, New Mexico 87502, (505) 827-2425.

Documentos entregados al NMED: Todos los documentos que deban entregarse al NMED deberán enviarse a: John Verheul, NMED Office of General Counsel, 121 Tijeras Avenue NE, Ste 1000, Albuquerque, New Mexico 87102, o John.Verheul@state.nm.us.

Información adicional y contacto con el NMED: Para obtener más información sobre el DP-1132 y la audiencia pública o para pedir que se le incluya en la lista de correos para instalaciones específicas, sírvase comunicarse con Steve Pullen, NMED Ground Water Quality Bureau (GWQB), P.O. Box 5469, 1190 St. Francis Drive, Santa Fe, New Mexico 87502-5469, llamando al (505) 827-2962, o en steve.pullen@state.nm.us. El registro administrativo y las copias del permiso propuesto pueden examinarse en la Oficina de Calidad de las Aguas Subterráneas (GWQB).

Todo aquel que necesite asistencia, un intérprete o un dispositivo auxiliar para participar en este proceso deberá comunicarse con Pam Castaneda llamando al (505) 827-2855 o mediante un pedido escrito a la Srta. Castaneda al menos diez (10) días calendario antes de la audiencia a: NMED, P.O. Box 5469, Santa Fe, New Mexico 87502, o Pam.Castaneda@state.nm.us.

El NMED no discrimina por motivos de raza, color, origen nacional, discapacidad, edad o sexo en la administración de sus programas o actividades, según lo exigido por las leyes y los reglamentos correspondientes. El NMED es responsable de la coordinación de esfuerzos para el cumplimiento de las reglas y la recepción de indagaciones relativas a los requisitos de no discriminación implementados por 40 C.F.R. Parte 7, que incluye el Título VI de la Ley de Derechos Civiles de 1964, como fuera enmendado; la Sección 504 de la Ley de Rehabilitación de 1973; la Ley de Discriminación por Edad de 1975; el Título IX de las Enmiendas de Educación de 1972; y la Sección 13 de las Enmiendas a la Ley Federal de Control de la Contaminación del Agua de 1972. Si tiene preguntas sobre este aviso o sobre cualquier programa, política o procedimiento de no discriminación del NMED, puede comunicarse con la Coordinadora de No Discriminación: Kristine Pintado, Non-Discrimination Coordinator, New Mexico Environment Department, 1190 St. Francis Dr., Suite N4050, P.O. Box 5469, Santa Fe, NM 87502, (505) 827-2855, nd.coordinator@state.nm.us. Si piensa que ha sido discriminado con respecto a un programa o actividad del NMED, puede comunicarse con la Coordinadora de No Discriminación antes indicada.

Transcripciones de la audiencia. Conforme a 20.6.2.3110.J NMAC, el NMED hará una grabación de audio de la audiencia. Si una persona solicita una transcripción escrita o una copia certificada del audio grabado, esa persona deberá pagar el costo de la transcripción o de la copia del audio.

Subject: DP-1132 suggested changes to Adm Record
Attachments: CCNS - ADMINISTRATIVE RECORD INDEX DP-1132 - Converted from PDF.docx

Good morning Steve,

Thank you for your time yesterday to talk about the DP-1132 Adm Record (AR). Attached are suggested changes to pages 1 through about half way through the 58 page index. Unfortunately, the Department did not have a word version of the AR to share with the public. CCNS received a version from the Department that was converted from a pdf. There are some bumpy parts in the attached document.

The suggested changes include:

1. changes to the page numbers;
2. additions of documents that were not included in the index (I numbered these with the Index No. plus an "A;")
3. further explanation/description of the documents (for example, Index No. 1 that includes an October 13, 1994 CCNS letter to NMED that is not found as a separate document in the Index);
4. inclusion of LA-UR numbers on DOE/LANL reports that were submitted to NMED;
5. a list of people attending various meetings; and
6. a description of the format, e.g., a powerpoint presentation.

Because of the size of the AR (over 13,000 pages) and the number of years DP-1132 has traveled through the administrative public process, CCNS found that a fuller description was helpful for our hearing preparations.

Please include this email and the attachment in the AR. Thank you.

Best,

Joni Arends, CCNS
